

WINTER IS COMING

BE PREPARED

Be prepared this winter with the Telescoping Scratch-Free Snow Brush and Scraper from True Temper®.

This brush features a telescoping, elliptical aluminum handle that extends from 36 inches to 52 inches using a large push button. The 180-degree swivel head easily removes snow using a push/pull motion.

It also uses EVA foam, rather than traditional bristles that can break down during winter, or worse, cause unsightly damage.

The flexible swivel head allows for easy storage and the telescoping, elliptical aluminum comfort-grip handle provides a sturdy hold, especially during extreme cold when used with winter gloves.

SPECIAL OFFER

Now while supplies last, get a free **Telescoping Scratch-Free Snow Brush and Scraper** when you purchase \$300 in Ames product from Total Tool.
